

SteadyRock!

Born Durrell Ivandro Jadir Jacinto, into a Mozambican family of musicians, Steadyrock! is influenced primarily by his experiences of street life. This fiercely independent and self-reliant personality has worked for many years as an artist, composer, songwriter, guitarist and producer. He has worked with many best-selling artists but has retained an independent hold on his own musical career.

SteadyRock!, recently performed at Oppikoppi held at Northam in Limpopo. He's shared the stage with South Africa's award nominees including Cassette, The Privates, Marike Jager, Trompies, Skwatta Kamp, Lira, HHP, Kwani Experience and Gang of Instrumentals to mention a few.

SteadyRock is making waves in the rock-reggae scene. Highlights include contributing music to the soundtracks of the South African films *White Wedding* and *Hidden Heart*. His music video "My favourite song" is currently enjoying rotation on Channel O and MTV Base.

SteadyRock!'s sound is tailor made for an uber audience with its smooth melodies and distinct, eclectic reggae soul with hip-hop influences. His live performances have won the hearts of many including of that of the media. In his attitude and his music, SteadyRock! offers an interesting glimpse into the possibilities of South Africa's future society – one where influences, styles and cultures are increasingly merged, and where traditional musical market segments are far harder to define.

Look out for the forth coming album, *SteadyRock! as Agent Provacateur in Musiocracy*, which will include collaborations with Mxo, Laurie Lavigne and members of Kwani Experience and be co-produced with Omen and Mphoza.
